Hair was black.
Why did I actually manage to marry an otaku?
Because we both understand each other's weaknesses?
Sorry...
It would be impossible for me to bring you happiness
Because there's no gap between the ideal and reality?
Nah.
With the bride grown worn...
A woman's happiness is close to complete.
Or perhaps because we can love even those parts.
I'll try to attain happiness myself you should do the same.
What is marriage again?

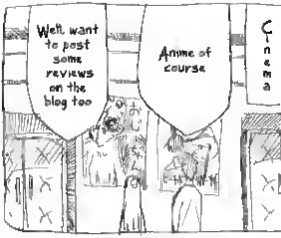
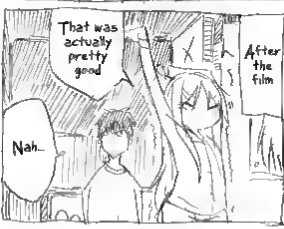
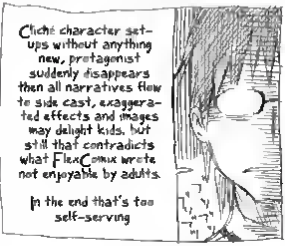
Hey she's wearing a maid dress in promotion
How nostalgic I remember you used to wear that in the shop
Maid cafes have increased a lot compared to back then
You don't seem awfully excited?
If the cafes flip in numbers, where do the girls that work in them come from?
If Kaoru wants to go to a maid cafe too then please be because you like maids
Nah...I'm not going.



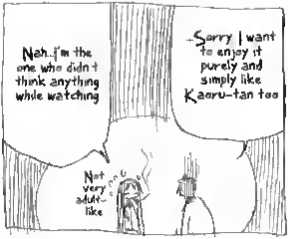
Cinema
Anime of course
Well, want to post some reviews on the blog too



After the film
That was actually pretty good
Nah...



Cliché character set-ups without anything new, protagonist suddenly disappears then all narratives flew to side cast, exaggerated effects and images may delight kids, but still that contradicts what FlexComix wrote not enjoyable by adults.
In the end that's too self-serving



Sorry I want to enjoy it purely and simply like Kaoru-tan too
Nah...I'm the one who didn't think anything while watching
Not very adult-like
